Rt. 8, Frederick, Md. 21701
6/17/75

Dear Bob, Harold

The enclosed is Rolling Stone's response to a proposal, prior to the Rockefeller Report, for a Belin article.

Their evaluation of your piece should please you if, as I've gathered, what they paid did not.

How glad I am to know that "the J.F.K. assassination has been covered in depth" by what you wrote.

Are you?

And have you seen the current issue, on Ray?

These people use others, like you, in a ripoff of the young.

To say nothing of unpaid writers whose honest they find an embarrassment.

This ripper-offer actually pretended to quote me. He never spoke to me. I learned about it when Stone phoned to check the quotes!

Ditto for Jim Lesar.

Consistent with the history with you there is no mention of a) my book or b) the fact that I did the Ray investigation.

Among other things.

If this is not enough on one side to explain my attitudes, then reflect a bit on the Rockefeller Report.

Those who fed it also consider me an irascible old bastard.

After all, didn't I warn them?

This is what Stone has against me.

Sincerely,

Harold Weisberg
